There was a misunderstanding of some sort in regard to his pay, so his vouchers will have to be returned to Washington. Herger was down in the records band-master with rank of Captain. Captain's pay would have entitled him But the regular army bandmaster doesn't rank as captain, only as chief musician and Herger's status will have to be explained before he can draw anything. The hospital corps was the best paid.

Its members each received \$2.67. Staff officers also were better paid than the line officers. Captains of companies received \$25 for the five days' service, First Lieutenants \$20.83 and Second Lieutenants \$19.44. Lieu-tenants on staff received \$22.22. First Sergeants were paid \$4.73, ordinary sergeants received \$3 even, and corpora's \$2.50. The exact amount due each man in the regiment was put in separate envelopes at Washington. each man's name was called, Captain Douglass thre the envelope open and Lieutenant gave him the money. Lieutenant Behr of the Artillery and Captain Gorman of the National Guard assisted in the payment. The staff officers, hospital corps and bandsmen were first paid off and then the companies in alphabetical order. All the companies "D" of Hilo were paid off last at. Captain Douglas will go to night. Hilo next week to pay off those men as well. The total amount distributed last night was \$1580.

### MARSHAL HENDRY'S TRIP TO HAWAII

Marshal E. R. Hendry served all of the Representatives on the island of Hawaii, excepting Kealawaa of Puna, with subpoenas to appear before the Federal grand jury in the voucher investigation. Kealawaa lives in Hilo but was forty miles from home when the Marshal arrived.

Landing at Kawaihae from the steamer Kinau, Marshal Hendry engaged a wagon with four horses for the journey to Hilo. Accompanying him were Captain McK. Williamson and Captain Reed of the U. S. Army board. Waimea was the first stage reached and the next Honokaa, where a change of horses was made. Other relays of animals awaited the expedition at Laupahoehoe and Hakalau, and Hilo timate of the distance is 82 miles, but it is supposed to be a good 90 miles.

Senator Palmer P. Woods, to whom the Marshal wrote, had arranged to have the members of the House of Representatives come to stations along the way for service. This not only facilitated the Marshal's duty, but was indispensable to the service of the pa-pers on a single round trip of the steamer. Marshal Hendry deeply appreciates this assistance of Senator Woods.

The army officers were very much pleased with their drive across the big island.

# ITALIAN SHIP ORDERED HERE

The Italian ship Agostina Terrizano has been ordered by her agents to Honolulu from Makawell. It is expected that the Terrizano may be fined by the collector for violation of the shipping laws, in going to Makawell direct instead of entering at a port of entry. The Commerce Department made a special order permitting the vessel to be discharged at Makaweli, which is not a port of entry. The Terrizano brought a cargo of coal from Australia for Hind, Rolph & Co.

Interest is centered at present in the bids for the million dollar bond issue which will be opened this week. Wednesday, November 18th. As far as can be learned now, none of the local banks will put in a bid for the bonds on its own account. The First National Bank which would have profited most by money for military service from Uncle purchasing the bonds to be used as security for deposits of public money will it is reliably stated not make a bid. The Hawaiian Trust Co., has received request from a mainland firm to put in a bid, and it is the expectation that none of the other banking concerns of the city will enter the competition.

As a matter of fact there is no necessity on the part of mainland concerns to send bids to Honolulu, or to bid through local banks, as bids are to be received and opened in New York, at the offices of the United States Mortgage and Trust Company.

Treasurer Kepoikai said yesterday that the bid of Pollitz & Co., of San Francisco could not be accepted in its present form. The bid was made at a time when the form of the call for tenders had not been formally decided upon, and the rate of interest was higher. In addition, the bid was not accompanied by a certified check for two per cent of the par value of the bonds bid for as is

required.

There is naturally a considerable amount of speculation as to the figure at which the bond issue will be placed. The fire claims bonds with Congressional approval sold in New York at nine y-seven and a half. They carried but four per cent interest, and it is the expectation that the "public improvement bonds" as the new issue has been designated will sell at least at par, and probably slightly above that figure. The Territorial bonds not only carry a higher rate of interest but they also have the added desirability of having been accepted by the Secretary of the Treasury as security for deposits of public funds, an advantage which can hardly be overestimated. The bonds may also be substituted for United States bonds which are held at a premium and which draw only a very low rate of interest.

Leading financial men in the city who were asked yesterday regarding the proposed bond issue, were of the opinion that the entire million dollars would be placed with one banking concern. That the bonds are desirable in the bond marker there is no question and a number of bids are expected, although probably nearly all of them will be sent to New York. Banking concerns dealing with bonds, it was stated, want an entire issue or none at all, for the reason that it will prevent any offering of the same securities from the sources which might diseases arising from impoverished the market. Unless the smaller bids total up to the amount of blood or weakened, unstrung nerves the entire bond issue, it is the expectation that a bid for the whole issue will be favored, even though it is at a slightly lower figure,

The purchasers of the bonds are required to pay the interest upon the bonds to the date of delivery. The bonds are dated October 1st, 1903, and the interest runs from that date. The bonds are to be delivered in New York on the 24th

### FIRE CLAIMS BONDS.

An effort is now being made in Washington to secure the approval by Secretary Shaw of the fire claims bonds, which were issued upon the authorization of Congress. The First National Bank of this city which holds about one-half of the issue is reported to be making this effort, as with fire claims bonds on the same plane as the new issue, United States bonds could be released, or used as a basis for further circulation. This is said to explain the First National's reported intention not to bid on the new bonds, as the fire issue would answer the same purpose. The fire claims bonds originally accepted by the Bank of Hawaii were all placed by the Wells Fargo Bank of New York.

Within the past week the Territory has been enabled to write off nearly Pills for Pale People." a million dollars of its existing indebtedness. The statement is more surprising than the facts really warrant, for the amount written off the books by the auditor has in reality had no existence for two years. To be exact it was the English loan which has only this month been credited to the Territory by the United States as paid, although the loan was taken up in London two years ago.

When Secretary Carter was in Washington recently one of his missions was to complete the transactions between the Territory and the United States, as regards the four million dollar debt which the national government assumed upon the annexation of the islands. The Secretary of the Treasury had just before Mr. Carter's arrival, sent to Honolulu the credit for the London loan, and this has now been finally wiped off the books by Territorial Auditor Fisher. The Territory gained just \$6,000 by the transaction, as the London loan has always been carried on the books at \$980,000 whereas the United States paid off the bonds with 974,000 in coin saving to the Territory the difference. There is an additional \$5,000 in bonds which will also be taken up by the United States. Of the original four million debt assumed upon annexation the United States paid \$2,251,400 in bonds of old issues, \$974,00 on the London loan, and \$764,570.31 on account of the postal savings bank, leaving a balance due to the local government of 11,029.69. Treasurer Kepoikai intends to take up bonds of the June, was reached in seventeen and a hair 1806 issue for this amount and also for \$10,000 or more, receipts from land

### POSTAL SAVINGS DEPOSITS.

Secretary Carter in connection with his Washington visit also attempted to settle the matter of balances due to depositors in the Postal Savings Bank. In this he was unsuccessful, Mr. Hamilton of the Treasury Department advising that further efforts be made to pay the depositors. The balances due are very small, running from a few cents to a few dollars, and although Mr. Carter sent out notices nearly a year ago asking the depositors to get their money, there have been very few responses. It is the intention of the government now to make been very few responses. It is the intention of the government non-another effort to get rid of this money, which amounts to less than \$4,000. The treasury officials advised that under the act of Congress, the Territory of Hawaii became responsible for the payment of the money and it would be illegal to use the fund for any other purpose, without necessary legislation. Both Congress and the legislature will have to act before the Postal Savings account can be finally settled. Otherwise the Territory is likely to have a claim presented at any time for years to come. The solution of the difficulty will probably be the appropriation on the part of the legislature of a sufficient amount to pay all claims as they may be presented, and with an act of Congress, authorizing the closing of the account finally, it will not be necessary to keep the fund intact.

### TAXES COMING IN.

Tomorrow will be the last day for the payment of taxes and money has been pouring into the Territorial coffers from every side. Both the property and income tax becomes delinquent at this time and somewhat over a million dollars will go into the Treasury during the month. There is the usual complaint in the city that money is scarce and that the government has drained the Territory of all available cash. The money will not be tied up in the vaults for such a very long period, for if there should happen to be any great amount of money remaining after current expenses are paid, some of it at least will go to the several

The differences over the county act, by the way, are responsible a good deal, for an uneasy feeling in the business community over the possible outcome of the change in the form of government, scheduled to take place on the first of the r. Contractors are a little doubtful about bidding on contracts when they not certain of whom to look for payment. The Supreme Court decision upon the County Act is being anxiously awaited, for it is expected to settle the major portion of the differences now existing between government officials.

### SUGAR.

The slump in Ewa has been the feature of the week in local stock circles. There has been a total sale of probably 350 shares at par, which is the lowest price recorded since the new activity on the stock market. It has been the expectation all along that the dividend on Ewa would be increased over six per cent, and the failure to do this, is responsible for the continued slump. There been a definite announcement that there would be no increase in dividends, although the returns from the season's grind was expected to warrant this. reason assigned for the failure is the desire on the part of the directors to provide for a reserve fund which will do away with the interest charges on plantation advances. Another \$100,000 of the bond issue will also probably be paid off.

The only other active stock was Hawaiian sugar in which there have been ales of 500 shares at from \$25 to \$26. The sales, however, bought the stock down to \$24.50. McBryde fell from \$4 to \$3.50 on one small sale. There was one reported sale of Rapid Transit at \$81 which is the sold figure, and there also one sale of Waialua at \$50. The stock market generally is weak.

The new bond issue growing out of the Kihei consolidation will soon be by Haiku will issue \$300,000 and Paia \$450,000 in six per cent bonds. The Hawaiian Trust Co. is the trustee.

The protest by mercantile houses against the practice buying building mate-

rial on the coast has aroused considerable discussion. The feeling is that the protest is well taken—that home traders should be patronized as much as possible

as long as there is no intention to take advantage of the builders.

The Kamalo sugar proposition is still in the air. Promoter Edmunds claims to have seven-eighths of the stockholders willing to go into his scheme of converting the plantation into sisal. Magoon is reported to have offered to advance the money required to pay the present debts of the corporation and take a mortgage on the property. Dr. Mouritz is expected down this week and there may be

something doing.

The Bank of Hawaii's new savings bank scheme is taking well. The first supply of banks is exhausted and a new supply came on the Alameda.

### Passed Small Bogus Checks.

Detective McDuffle yesterday afternoon placed Thomas Boisselier under arrest on a warrant charging him with gross cheat. Waterhouse & Co., notified the police that Boisseller had been drawing checks on their firm, and the police at once looked the Frenchman up. Boisseller has recently been passing checks on saloons for very small amounts, some being for \$1.25, and the whole amount of his alleged transac tions amounts to but a small sum. He is a sugar boiler from Hawaii.

### BISHOP RESTARICK AND THE PRESIDENT SAN TRANCISCAN

Bishop Restarick expects to be back here about the middle of December. He has been to Washington where he preached and was with President Roosevelt when the latter received the news of Judge Estee's death. The Bishop was questioned at length about Hawaiian affairs in general and Chinese immigration in particular. The President said he was against any relaxation of the existing laws, in which Bishop Res-tarick opposed his view, explaining the special need of Chinese labor in Hawaii. "he Bishop also talked over lo-cal needs with the Acting Secretary of War and General Greely.

The Baltimore Sun of Oct. 30, in de-

man's Club, quoted the Honolulu Bishop as follows:

Bishop Restarick told of the great American spirit in the Islands of which he is missionary bishop. He gave a history of the group, pointed out their

possibilities, told of their natives-a kindly, lovable race. He traced the history of missionary work and of the church schools, and he declared the Chinese in the Islands an intelligent race, a wonderful people. 'He spoke of an interview yesterday with President Roosevelt, in which the latter told of his objection to Oriental

invasion, and in which he explained the need of Chinese in the Islands. 'I am an exclusionist as far as this con-tinent is concerned, he declared, but not as regards the Hawalian Islands. Bishop Restarick will spend some little time in Chicago and San Francisco before returning home.

### New Suits Filed. The Kapiolani Estate has brought

suit against W. R. Castle as trustee for Leialoha K. Al. Philip L. Weaver and W. H. Hoogs for trespass. The plaintiff claims that Castle as trustee, Weaver and Hoogs wrongfully, with force of arms, ejected the plain-tiff from possession of certain property in Kawaiahao. Plaintiff claims as damages \$2824, being rents which should have been derived from the property and expense incurred in recovering possession. A further claim is made of \$5400 for damages resulting from the destruction of the property by fire, it being alleged that the defendants received that amount from the Territory of Hawaii for the loss incurred. An attachment is asked to be issued against Weaver as judge of the land court, and the auditor is made a party to the suit as garnishee.

W. R. Castle, Jr., and Philip Lans dale have brought suit against Mark Robinson, et al., executors of the S. C. Allen estate, for \$425 alleged to be due for selling certain property to Mrs. Fannie Love for \$5500 at the request of S. C. Allen.

### **KUHIO ORDERED** FROM THEATER BOX

Most native Hawalians who have traveled in the States will appreciate the feelings of Prince Kuhio and wife, as described below, the more because of personal experiences of their own. East of the Sierras any man of color, seeking first-class accommodations, is likely to be mistaken for a negro and treated accordingly. A year or more ago the Queen and her attendants were refused accommodations at a famous Eastern hotel because they were taken for the "Black Patti troupe." men with Hawaiian wives have been subjected to special annoyance on this score. Following is an account of Prince Kuhio's mis-adventures:

COLUMBUS (O.), November 6 .- J. K. Kalanianaole, delegate to the coming ession of Congress from the Territory of Hawaii, and affectionately known by the people of his native land as "Prince Cupid," met with a humiliating ex-perience during his stay here. Prince and Princess Cupid were occupants of a box at the Southern Theater, and were thoroughly enjoying the surroundings, when the Prince was suddenly tapped upon the shoulder by an attache and requested to "Bring the woman," so the story goes.

The Prince thought at first that some mistake had been made, but was invited again to leave, the attache believing him to be a negro. The management, after learning of the blunder, sent special emissaries to the luxurious hotel apartments of the Prince to make due amends, but he scorned them and left for the East.

# PRAISES HONOLULU

An interview like the following in the Chronicle, cut from that paper and photographed and used in such Hawaiian literature as is circulated on the coast, ought to be a paying advertisement:

Andrew M. Davis, secretary of the Emporium and vice-president of the Merchants' Association, who returned from the islands on the Alameda Monday, said vesterday: "My trip to Honolulu was altogether

change from the ordinary cares of life, this trip is an ideal one. The voyage is just long enough to be enjoyable and at the terminus one finds a clean, wellbuilt, interesting city, equipped with a splendid electric car system and ample and luxurious hotel accommodations. Added to these comforts are all the charms of a tropical environment and association with a people so kind, gallant and hospitable that the visitor is at once made to feel at home.

"The climate during my stay was most agreeable. Never too warm for comfort nor cold enough to necessitate. heavy clothing. One soon falls into the easy-going lackadaisical manners of inhabitants, and in so doing, gets the benefit of having journeyed into foreign parts. The beautiful drives through parks and fertile valleys, the beauty of the majestic mountains, ris-ing everywhere from the sea, the isolation of the islands in the midst of the vast ocean-these are the things which make this spot at once refreshing and restful. A very satisfactory round trip may be made in less than three weeks. with five days on the islands, but one who has the time to spare would be well repaid for staying over for the next steamer or even spending a month in visiting this and other islands in the

group. "I experienced from my trip all and more than I had anticipated and to Americans in general, and to Californians in particular, who are seeking rest and change from the strenuous life. I heartily recommend a trip to Honolulu."
